

Module 1: Ubuntu Installation & VirtualBox Setup

Objective

Install Ubuntu 24.04.4 LTS in Oracle VM VirtualBox for cybersecurity training.

Environment

Oracle VM VirtualBox

Ubuntu 24.04.4 LTS (64-bit)

Windows Host

Completed Tasks

Downloaded Ubuntu ISO.

Created a virtual machine.

Configured RAM, CPU and virtual disk.

Installed Ubuntu.

Installed VirtualBox Guest Additions.

Enabled Shared Clipboard and Drag & Drop.

Updated Ubuntu.

Verified copy/paste and automatic screen resizing.

Outcome

A fully functional Ubuntu VM ready for Linux and cybersecurity labs.

Motto

Learning. Building. Securing.
